Qtrs. I

I am not sure I understand why we are asked to concur in these regulations. I should think we would want a blanket exception; that we would want to report only those items we choose to report; and that we would usually want a special reporting arrangement to ensure that our interest is concealed.

Can you have someone explain this to me before you prepare a reply. Perhaps the answer should be written for DD/S signature.

DD/S 64-4503 - Letter to DCI fr Admin/GSA dtd 6 Aug 64, re: " Proposed revision of Part 3, Chapter III, Title 1, Personal Property Management, Regulations of the General Services Administration"

Washington 25, D.C.

August 6, 1964

Honorable John A. McCone
Director
Central Intelligence Agency
Washington, D. C.

Dear Sir:

Enclosed for your review are copies of a proposed revision of Part 3, Chapter III, Title 1, Personal Property Management, Regulations of the General Services Administration.

The revised regulation provides reporting criteria for excess personal property which correspond closely with the supply and equipment needs of current programs and missions of Federal agencies.

Your review of the enclosed document and advice of concurrence or recommendations for changes, within 60 days after date of this letter, will be appreciated. Marginal notes concerning the important revisions of current criteria were included on the enclosure for convenience of reviewers. They will not be included on the revised Exhibit 29, Appendix C, of the regulation when it is printed and distributed.

Members of your staff may obtain information concerning the proposed document by communicating with Mr. G. L. Price, General Services Administration, Utilization and Disposal Service, Office of Personal Property, Utilization Division, Washington, D.C. 20405; telephone 343-3053 (Government dial code 183-33053).

Sincerely yours,

BERNARD L. BOUTIN
Administrator

REPORTING CRITERIA

- A. The table below shows the groups and classes reportable to General Services Administration. A line item in a reportable class will be reported when:
- (1) It has a condition code the same as or better than any of the condition codes shown in the last column; and
 - (2) It has an acquisition cost (or standard price) of \$300.00 or more, except that a line item reportable to General Services Administration in groups 32, 51, 55, 71, 74, 75, or 76 will be reported if it has an acquisition cost (or standard price) of \$100.00 or more.
- B. (1) The table below states that line items as specified herein will be reported when in class 1510, 1520, 1560, 2810, 2840, or any class in group 15 except 1670. In Agencies other than the Department of Defense all line items in these classes will be reported when dollar and condition criteria are met. In the Department of Defense aircraft in class 1510 which are in the Cargo/Transport, Observation, Anti-Sub, Trainer, or Utility series, all aircraft in class 1520, and line items in the other classes which are components of these aircraft will be reported when dollar and condition criteria are met.
- (2) Items in classes 1510 and 1520, held by the Department of Defense or other Agencies, will be reported to Utilization Division, Utilization and Disposal Service, General Services Administration, Washington, D.C. 20405, rather than to a General Services Administration regional office.
- C. Electronic data processing equipment covered by General Services Administration's Personal Property Management Regulation No. 36, whether such equipment falls within group 74 or otherwise, will be reported in the manner set forth in Personal Property Management Regulation No. 36 to Utilization Division, Utilization and Disposal Service, General Services Administration, Washington, D.C. 20405, rather than to a General Services Administration regional office.

CHANGES

Current criteria have a minimum acquisition cost of \$300.00 for most line items, \$500.00 for some line items, and \$100.00 for other line items. This change would establish \$300.00 as the minimum for all but 7 of the groups; these 7 would have \$100.00 as the minimum.

DOD letter to Commissioner, FSS, May 21, 1958 designated 31 DOD aircraft to be centrally screened by GSA. List was published in AFSSC Op. Notice U-1, December 23, 1959, but was never published by GSA. This change will make obsolete the mentioned list, and will produce centralized reporting and screening of all civilian agency aircraft and several broad categories of DOD aircraft.
